RC-1000 RUST PREVENTER CONCENTRATED FORMULA

GET AHEAD OF THE GAME

DON'T BE RUSTY

PREVENTS RED WATER STAINS, RUST AND SCALE FORMATION

RC-1000 CONCENTRATED RUST-PREVENTER

To be used in a rust stain inhibitor systems and similar applications. It is stored in a holding tank and injected into the sprinkler systems gradually and continuously. This proactive approach hinders the formation of rust and red water stains, ensuring the longevity and aesthetic appeal of your properties.

Provides three distinct and separate actions:

✓ IT'S SAFE

Does not contain muriatic, phosphoric acids or chlorides.
Does not affect grass or shrubs.

✓ IT'S EFFECTIVE

It prevents the formation of rust and red water stains on properties by coating the iron so it can't oxidize.

✓ IT'S TRUSTED

Thousands of customers have proven our time-tested chemical since 1969.

RUST PREVENTER

CONCENTRATED FORMULA

GENERAL INFORMATION AND INSTRUCTIONS

WHAT IS RC-1000?

RC-1000 is a specially formula liquid substance designed to tackle mineral stains, remove mineral scale, and provide effective mineral sequestration and chelation. Functioning as an internal anti-corrosion agent, RC-1000 safeguards against corrosion pitting without posing any harm to plant life, thanks to its acid and chloride-free composition.

HOW DOES RC-1000 WORK?

Mixed with water in a holding tank and gradually injected into sprinkler systems, RC-1000 forms a protective coating on iron stain surfaces, preventing red water stain. This proactive approach hinders the formation of rust and red water stains, ensuring the longevity and aesthetic appeal of your properties.

IS RC-1000 HAZARDOUS?

No! RC-1000 boasts a formulation free from muriatic, phosphoric acids, or chlorides. When used as directed, RC-1000 is safe for people, pets, and plants, providing peace of mind as it delivers optimal performance.

HOW IS RC-1000 SOLD?

RC-1000 is sold in 1-gallon, 5-gallon buckets and 55-gallon drums, catering to diverse needs and quantities for both residential and industrial applications.

SUGGESTED MIXING RATIO

RUST MASTER RC-1000 CONCENTRATE FORMULA

TANK SIZE	RC-1000
15 gal - 20 gal	1 gal
35 gal - 40 gal	2gal
55 gal - 60 gal	3.5 gal

CONCENTRATED FORMULA RC-1000

Tailored for specific applications, RC-1000 offers concentrated power and versatility, allowing you to address varying levels of mineral-related challenges with precision.
